Literacy
We will be reading collections of book by important modern authors of children's fiction, having fun with humorous poems and using information books. We will continue to improve punctuation in writing and work on phonics to improve reading skills.

Numeracy
We will continue to develop skills in addition, subtraction, multiplication and division. We will increase our understanding of analogue and digital time, work with different units of measure especially litres and develop our data handling skills.

R.E.
This term we will be looking at special times in our lives, and we will learn how to describe special religious ceremonies which mark these occasions

Music
During this term we will be learning to carefully and confidently choose and order sounds to achieve an effect/image; recognise and use changes in timbre, tempo, pitch and dynamics. We will also identify different ways sounds can be made and changed.

D.T.
We will be designing and making our own hand puppets.

History
We will learn about seaside holidays, & what they were like in the past. We will recognize & discuss some similarities & differences between holidays now and in the past.

P.E.
We will continue to develop our gymnastic skills and we will be trying out different athletic activities. In dance we will work towards a dance for Midsummer Madness.

Art
We are investigating the qualities of a variety of natural and man-made materials. We will learn skills for weaving & the understanding of colour & texture.

Geography
This term we will be learning about going to the seaside. We will identify key features of a seaside resort.

Science
We begin by grouping different materials and looking at how they might change. We move on to exploring forces and movement.

Ways to help.
Please continue to read with your children and talk about the books. It would be really helpful if you could involve your children in counting out money for small purchases and calculating the change.

PSHCE
We will be identifying ways to keep safe in different situations.

ICT
We will research information related to different subjects. We will also be looking at different data handling programs. We will collect data related to different subjects and use it to plot graphs, pie charts and branching diagrams.
