

Eco News

We were delighted to receive our 2nd Green Flag Award last July. Thank you to last year's eco-committee.

Each class has now elected their new eco-committee members and they have started meeting and are reviewing how green we are.

We have registered with Generation Green (British Gas) and are completing tasks to earn leaves which we can exchange for green goodies!

Our school leaf goal is 14,861 and so far we have earned 2,493 leaves.

Please help us by visiting,

www.generationgreen.co.uk

and help us get more leaves by completing an Energy Savers Report.

You can also visit the Games Room.

We would like to display photos of children doing green eco-friendly activities at home. Please give these to Mrs Staff or Mrs Brown.

Thank you.

We have just received a collecting box for clean aluminium cans and foil.

Please save any aluminium cans, sheets of foil or foil food trays and put them into our recycling box by the front door. To find out more about this initiative you may like to visit www.alupro.org.uk
