

No Power Day

Thursday 15th October

In order to help us appreciate how much electricity we use, and also to encourage us to reduce our usage, we have planned a no power day for next Thursday. We will be trying to use as little power as possible.

- We would like as many children as possible to walk or scooter their way to school.**
- Kelly in the school kitchen will prepare packed lunches for those children who normally have school dinners.**
- The heating will be turned off so children may like to wear an extra layer under their school sweatshirts.**

Thank you in anticipation of your support.

From the Eco-Committee
