

Dear Parents,

The children have been introduced to the school Learning Platform. This is an internet based learning resource that they all have a log on for. They should have a card with their user name and password on. The website address they need to go to is:

[www.schools.bedfordshire.gov.uk](http://www.schools.bedfordshire.gov.uk)

They need to scroll down the page until they can see the learning platform log in on the right hand side. Once they have clicked they need to type in bdt (all lower case). This is the school code. They can then enter their user name and password which is on their "card"

The first page is called their desktop. They are currently members of their own class. The link to the classes is shown at the top. The Learning Platform is still in the early stages and all the staff are new to it too!

There is a link to the learning platform from the school website on the shared page/school information.
